LIGHT ANALYSIS

MOST OF THE LIGHT COMES FROM
THE SOUTH & WEST THROUGH OUT THE DAY.

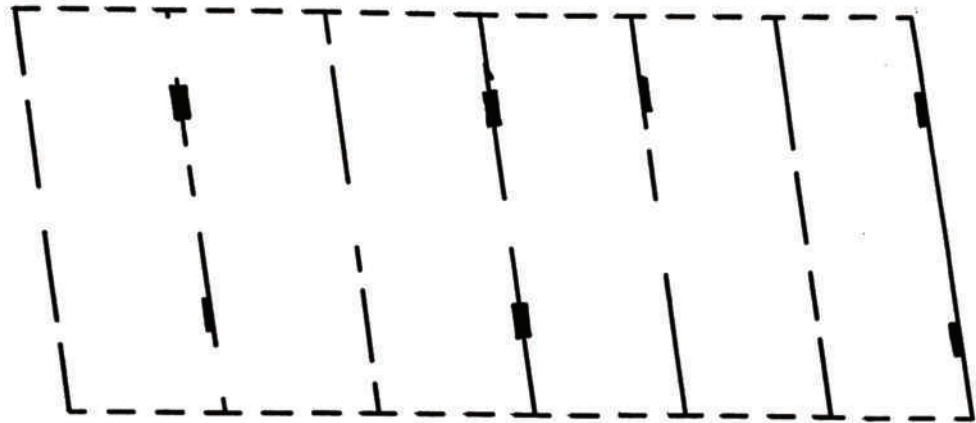

THE WEST FACADE FACES ANOTHER
BUILDING BLOCKING SUNS DIRECT PATH

THE SOUTH FACADE FACES BAY ST.
BUSY STREET DUE TO TRAFFIC & TOURISTS
SUN COME IN DIRECTLY THROUGH WINDOWS

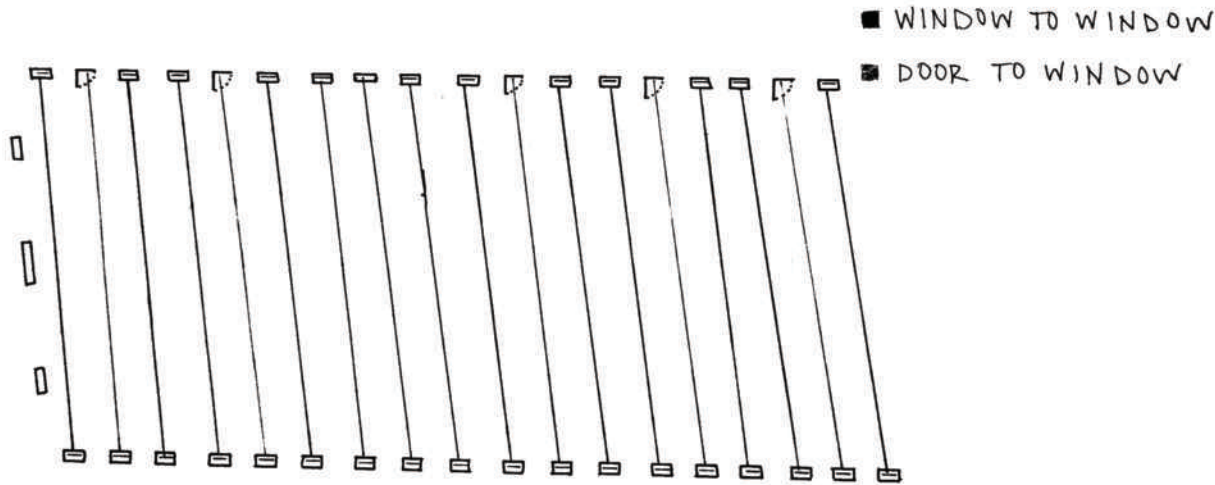

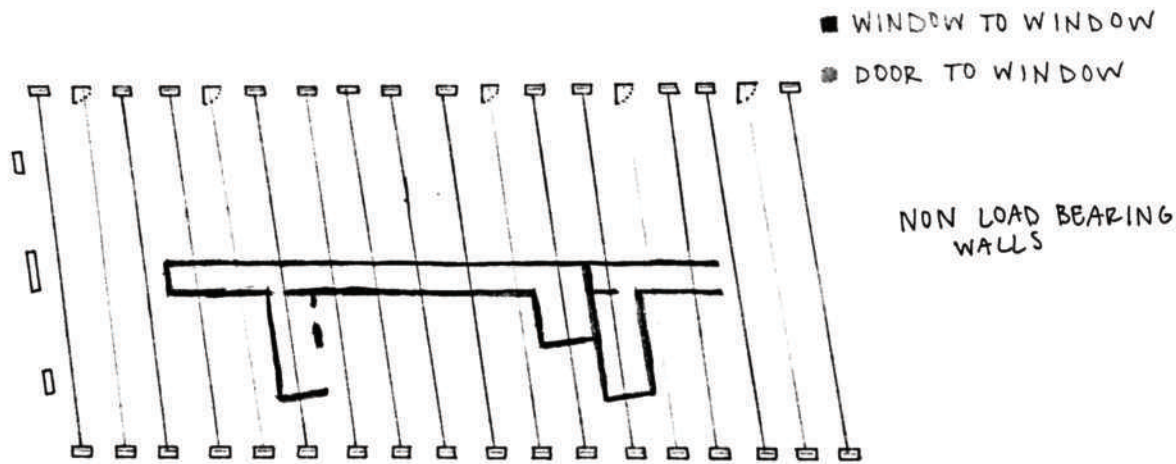

NORTH FACADE FACES THE RIVER ST.
TOURISTS, FERRY BOATS, CARGO BOATS
SUN HITS AT SUNRISE

BUILDING ANALYSIS

LOAD BEARING
WALLS
WITH ORIGINAL
BRICK WALLS

All non load bearing walls are original exposed brick

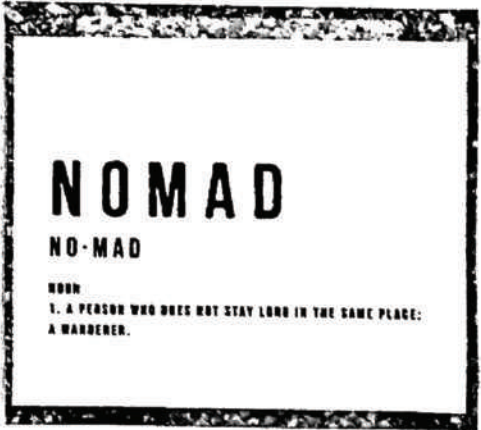

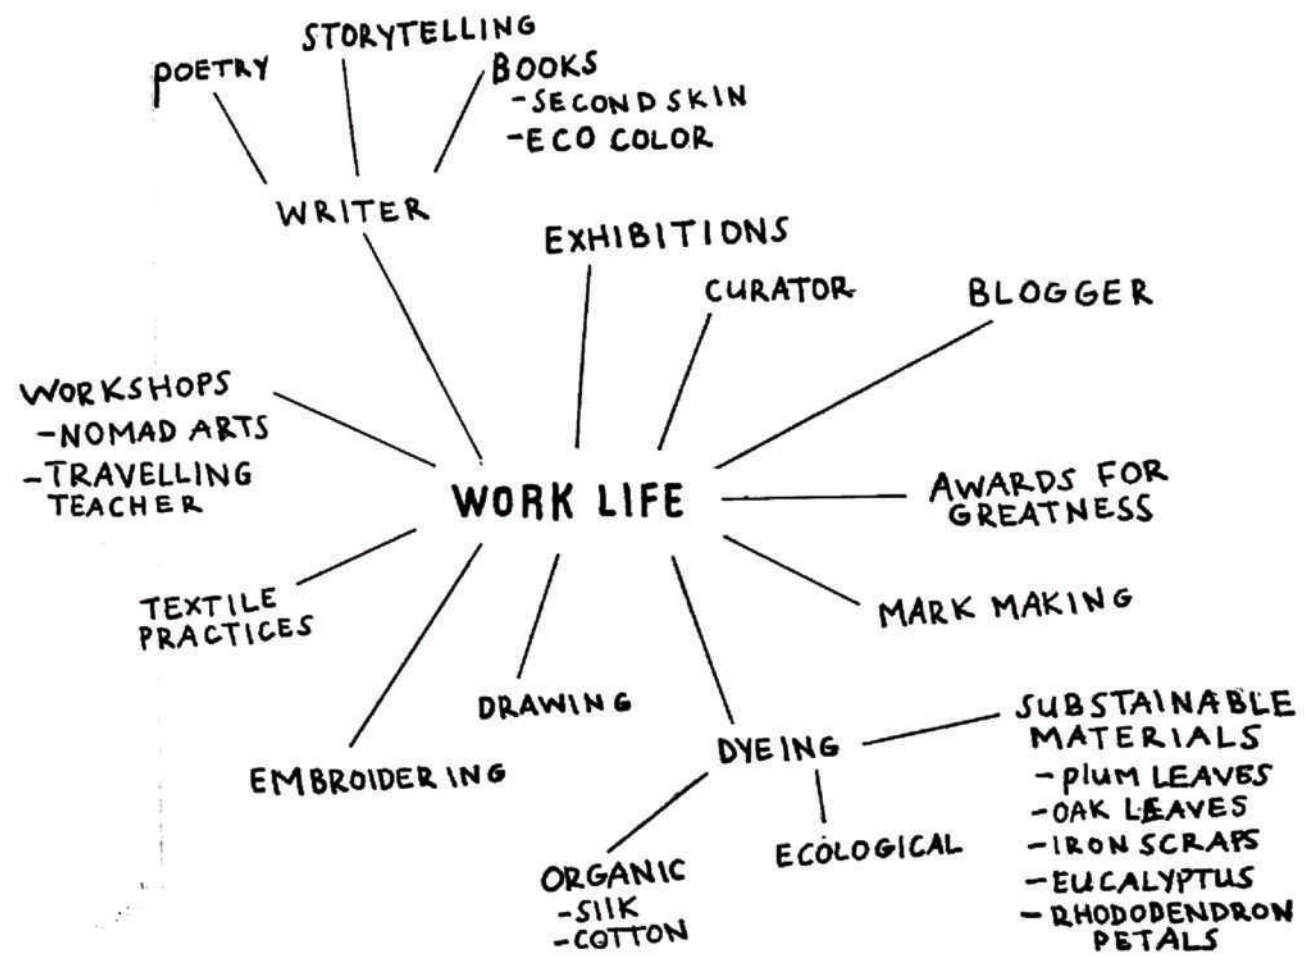

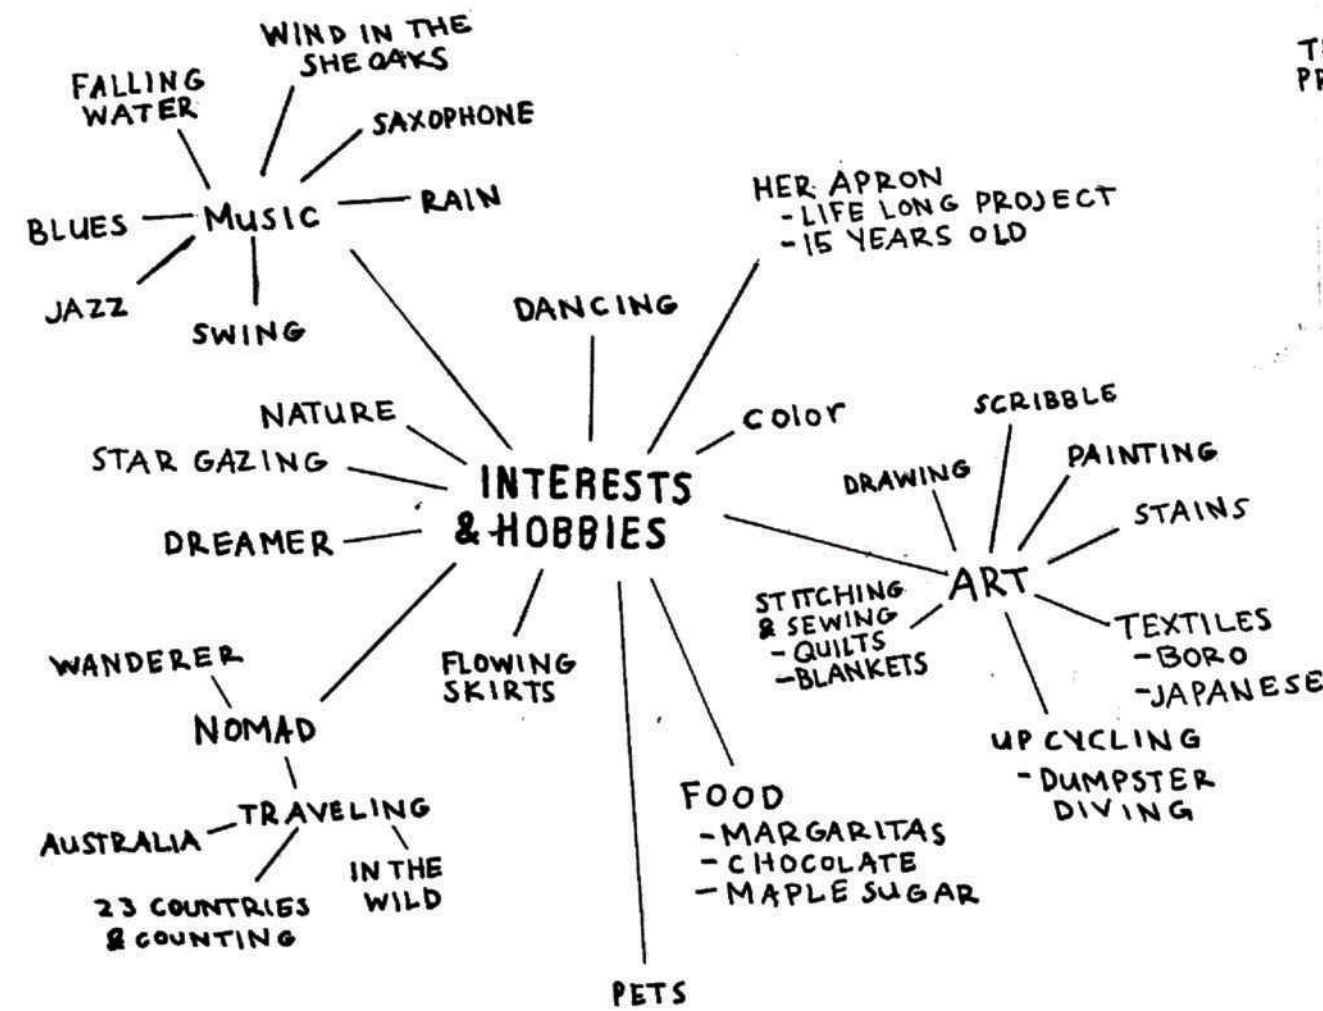

Walls meet at a slanted angle

Shaded blcoks are built in fireplaces

INDIA FLINT

"VENERATE RATHER THAN EXPLOIT EARTH."

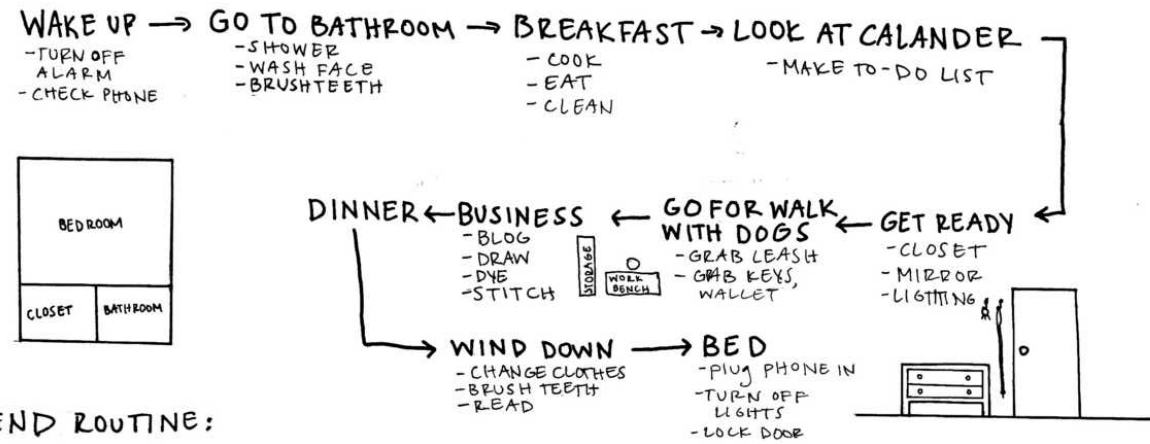

India is a nomadic artist that travels around to teach her practices of creating textiles by ecological dyeing with the use of botanical dyes. She is also passionate about writing, embroidering, drawing, and mark making. India is getting older, she is 61, so she will need to settle down as some point where she can also remain teaching her practices.

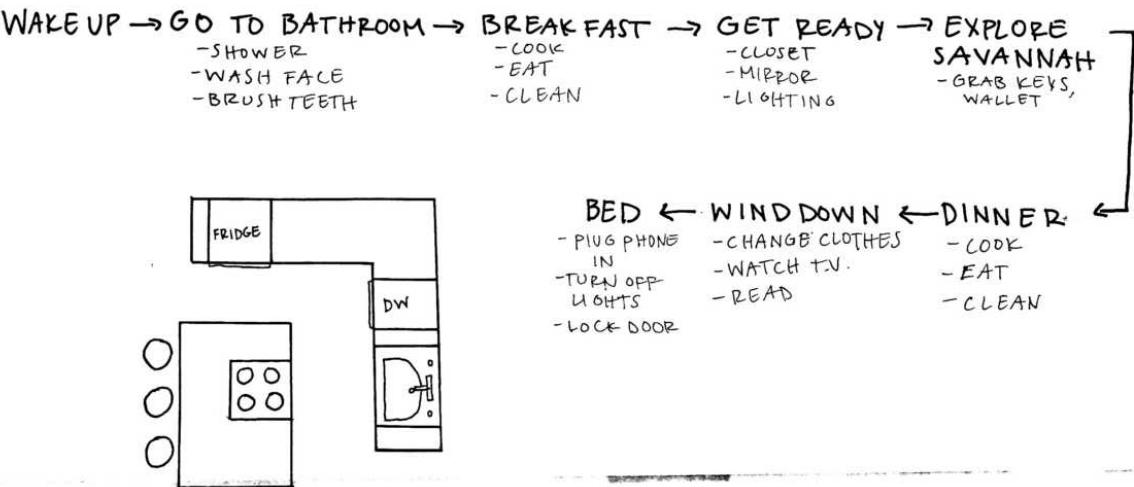

"SILENCE IS GOLDEN."

CONCEPT BRAINSTORM

INDIA'S OASIS AT HOME

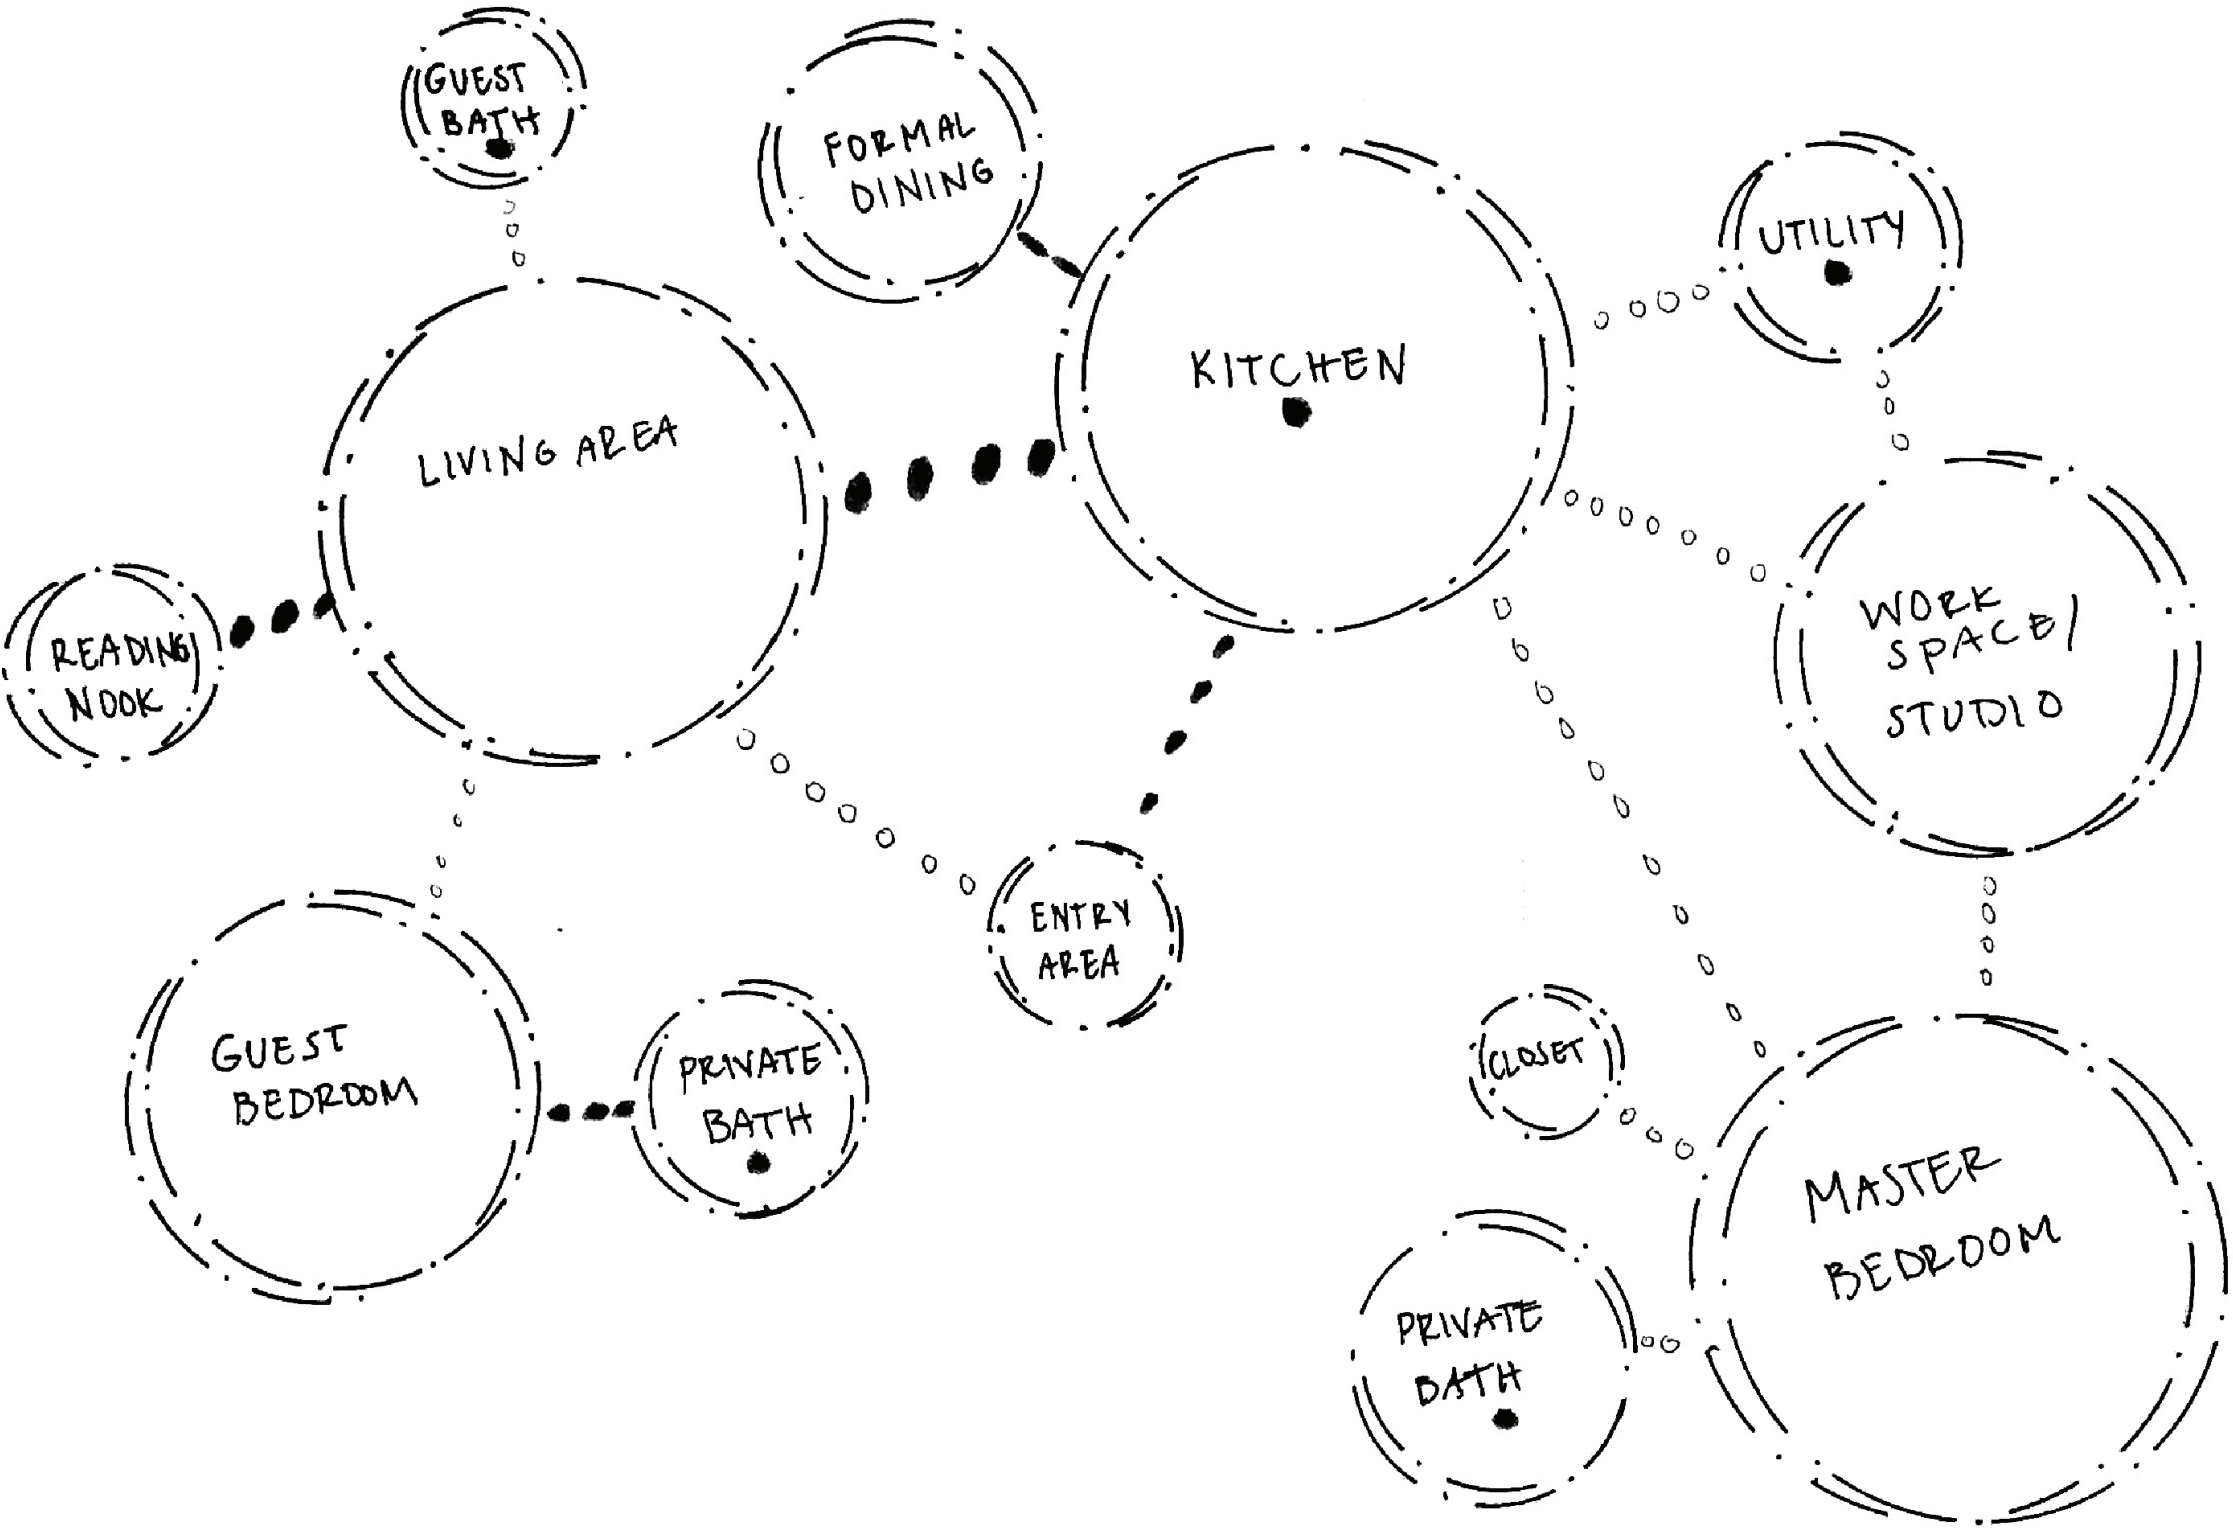

An oasis by definition is a pleasant area or period in the midst of difficult, troubled, or hectic place or situation. It often emerges out of something that symbolizes a lack of life such as the desert. They form when wind blows out deep channels in low lying areas of the desert and digs up spring or ground water that once fell as rain. Oases are gathering places for animals to drink water, eat, and find shade. It is a peaceful meeting ground surrounded by something essentially dry, uncomfortable, or unfamiliar.

Meeting point in a central area to create a sense of gathering and interactions
Symbolizes life

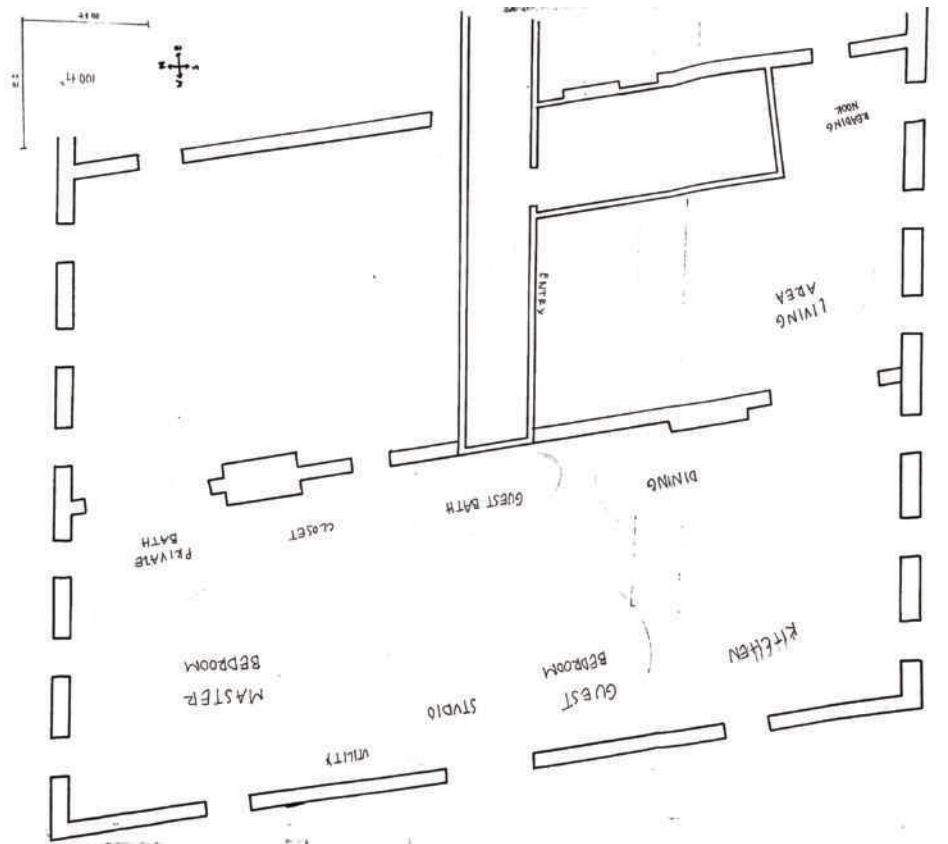

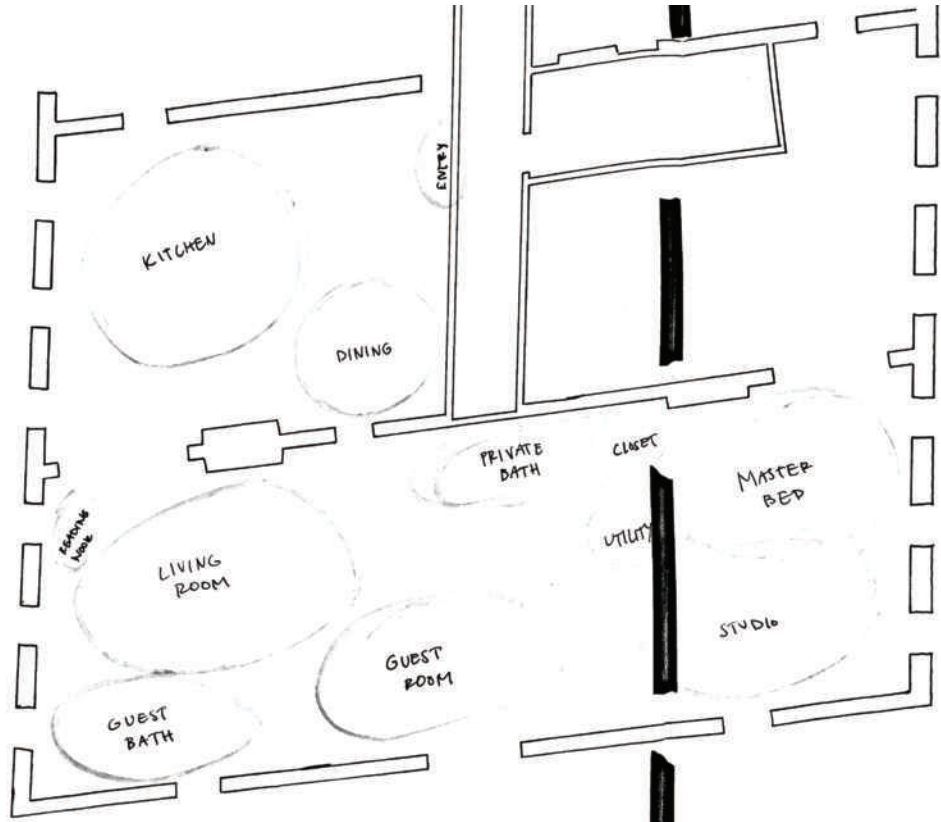

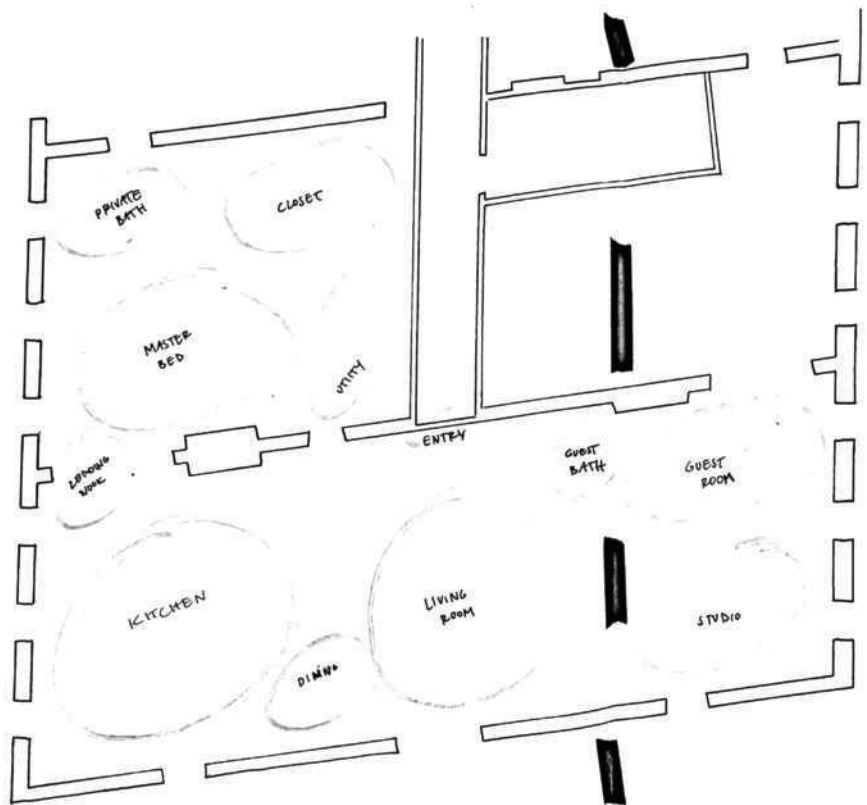

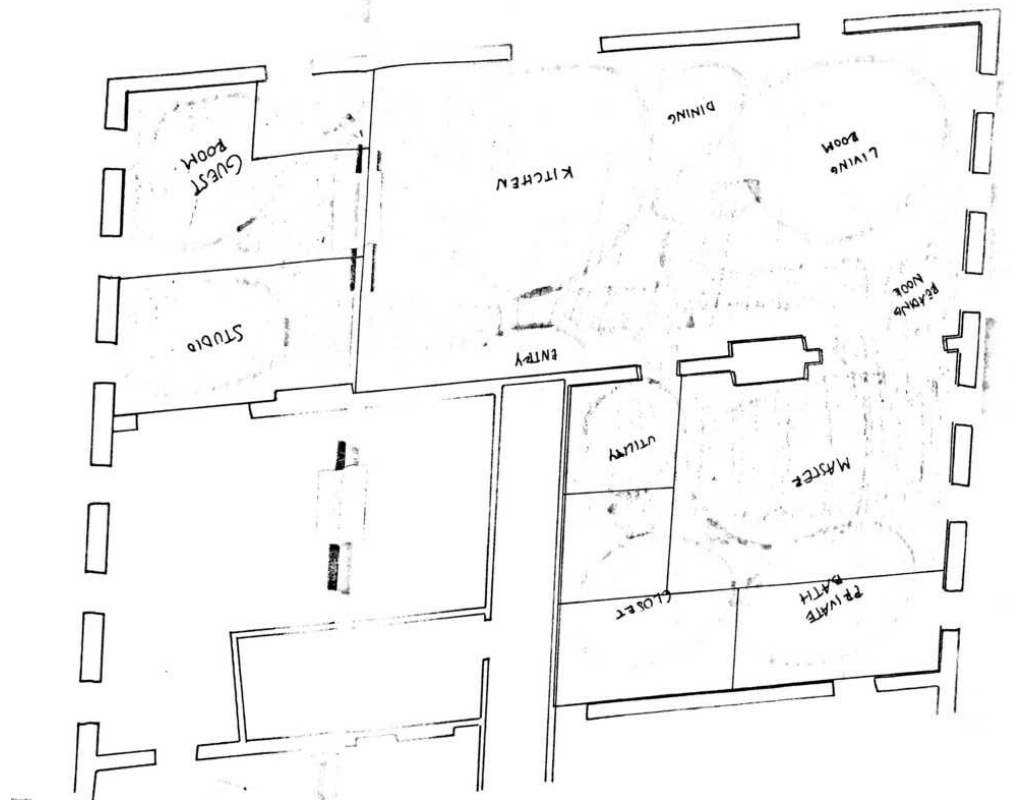

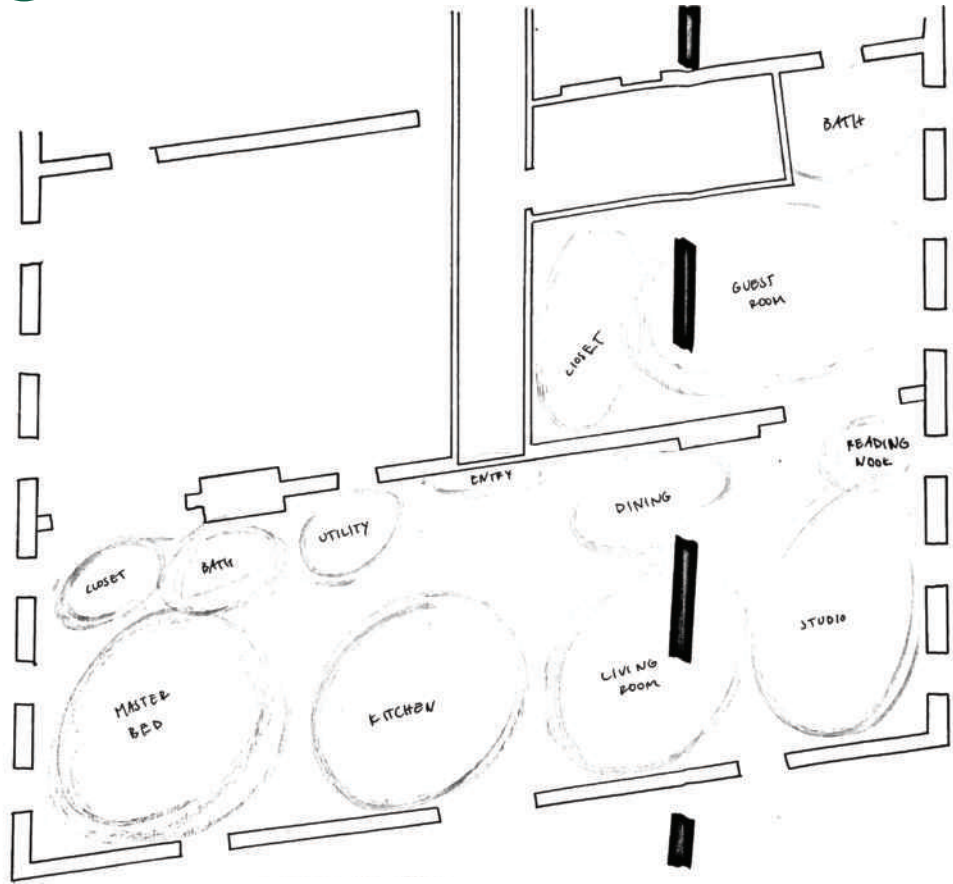

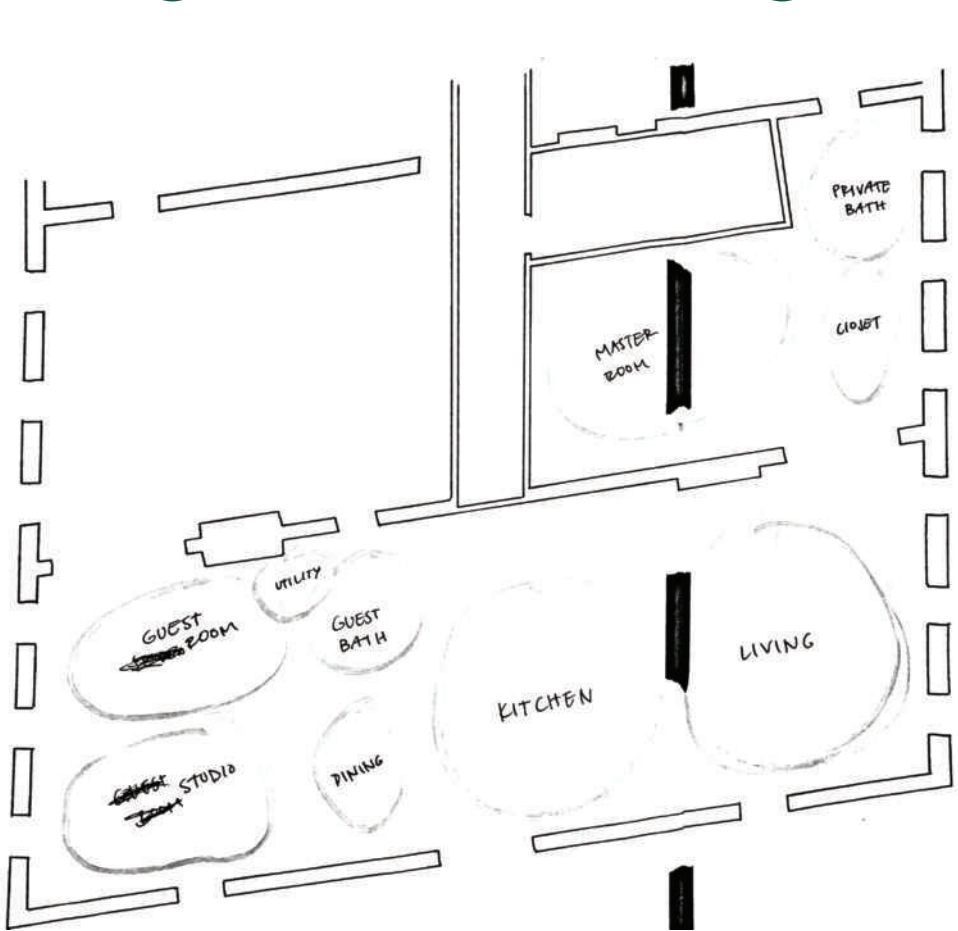

ADJACENCY DIAGRAM

- - DIRECT
- - INDIRECT
- NATURAL LIGHT
- - PLUMBING

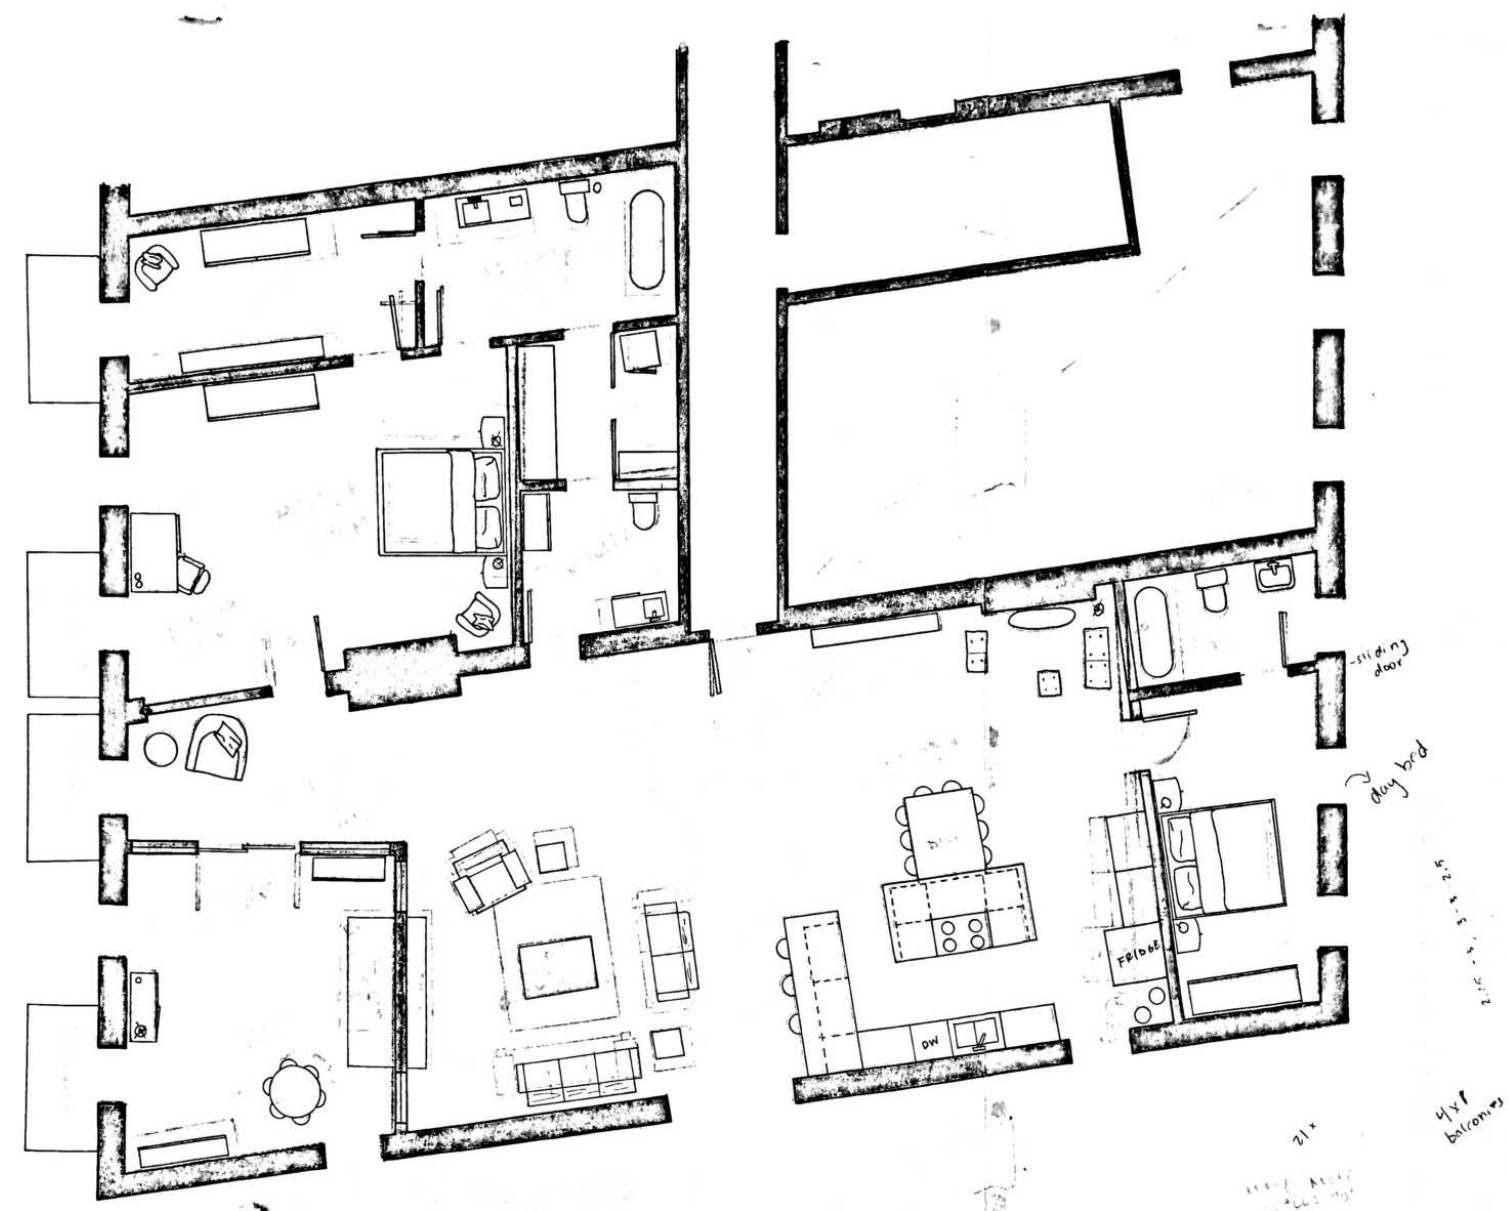

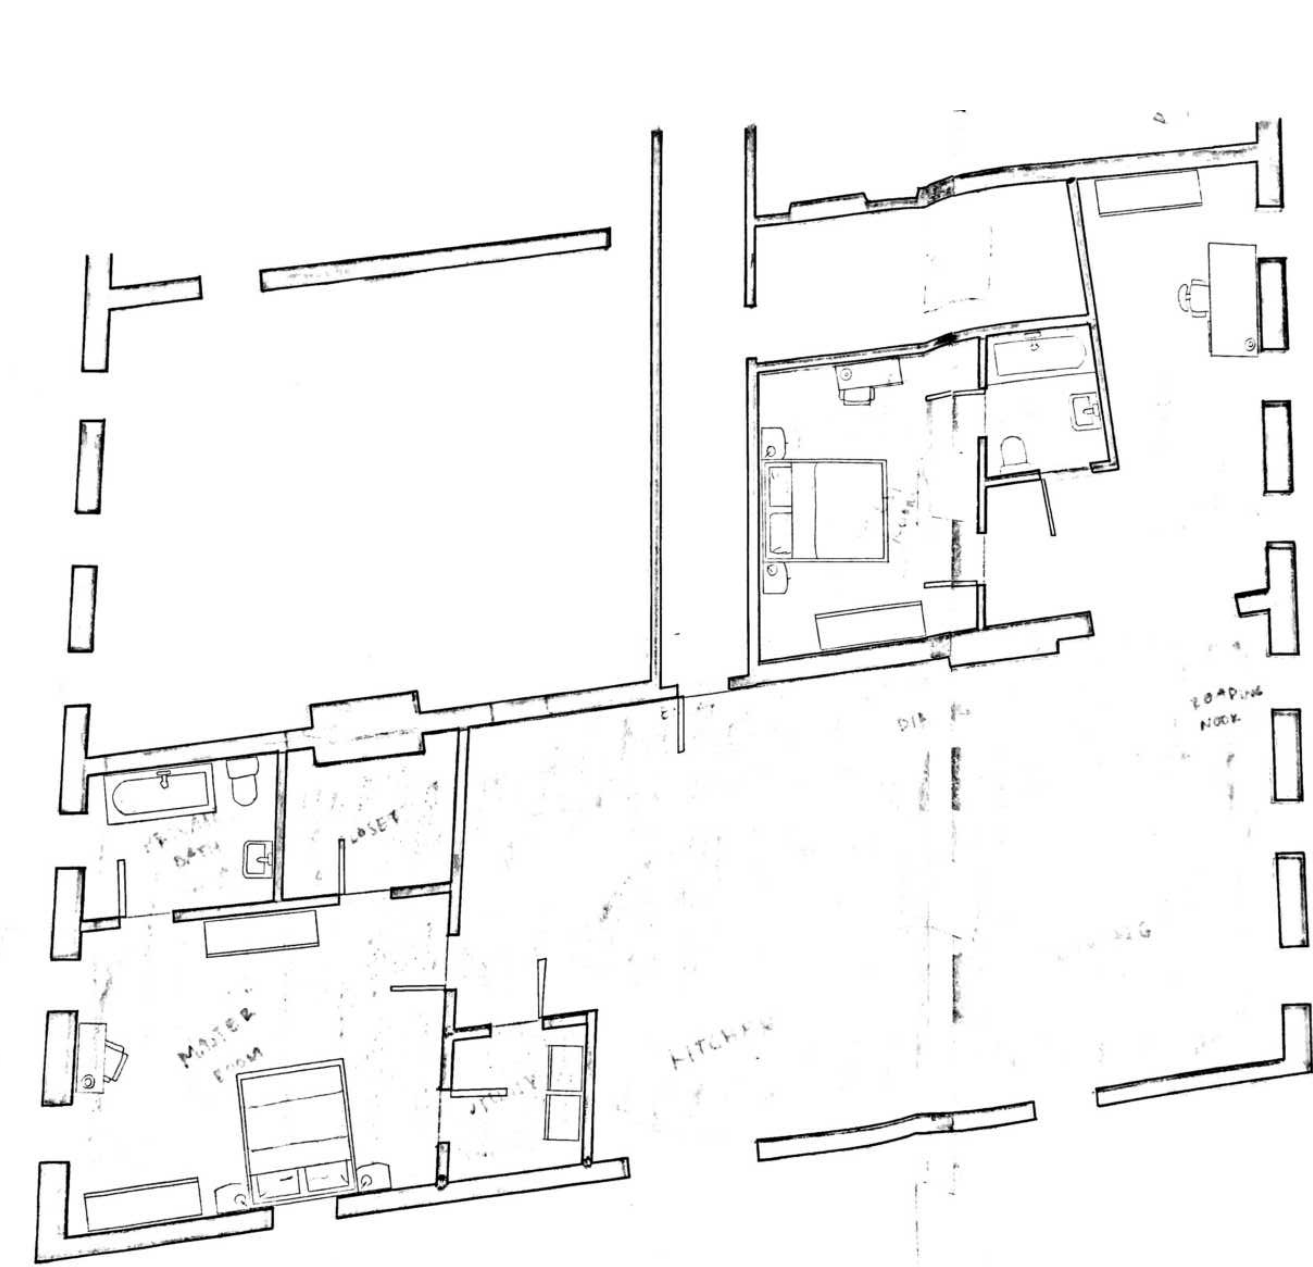

India is fond of social gathering so I kept that in mind will thinking of what rooms should connect and how they should connect. I wanted to keep a mostly open floor plan when it came to social spaces so even if you are across the room you'd still be able to connect with people from the other side of the apartment.
